Renfrewshire, PA15 1XX.

Support Plan

A support plan is a document setting out the support provided to a service user in supported accommodation. It might include:

- An initial assessment of a person's support needs
- A schedule of planned support activities over a period of time
- The goals that it is hoped the support will achieve
- A record of progress towards those goals

There are some recognised methods used to draw up and maintain support plans including the Outcomes Star.
